

**Program Objectives**  
**Participants will be able to:**

- Differentiate between Home Health Agencies, Home DME companies, and Home infusion providers
- Identify how the home nutrition process differs from in-patient care management
- Discuss nutrition support issues in the home
- Provide an overview of nutrition therapy-related reimbursement guidelines
- Describe the role of the RD in the alternate-site care setting
- Identify symptoms, diagnostic criteria and treatment strategies for eating disorders AN and BN
- Identify nutrition deficiencies and requirements for anorexia nervosa and bulimia nervosa
- Relate complexities of both behaviors and nutrition for the overweight individual suffering from binge eating disorders
- Describe the role of nutrition in exercise and sports
- Briefly describe energy metabolism of CHO, protein, and fat along with recommendations for athletes
- Discuss the role of ergogenic aids in exercise and sport
- List the basics needed to get started in business, including an overview of registrations, licenses, and business structures
- Describe the components of a solid business plan and where to find research
- Identify what to expect in terms of financing
